

# Flat out better

The Cheertainer, a gusseted, form-fitting multi-ply bag, empties out flat, so you're getting every last drop of every fill. And with CDF1's assortment of fitments and taps, there's no foaming or splashing. Better yet, Cheertainer takes up far less space to store and transport than the traditional 5-gallon pail, making it a cost-effective solution for any number of food and beverage applications.
