

Kick the bucket

The Cheertainer, a gusseted, form-fitting multi-ply bag, empties more evenly and completely than the traditional 5-gallon pail. With CDF1's assortment of fittings and taps, there's no foaming or splashing, so you get the most out of every fill. Cheertainer takes up far less space to store and transport than the 5-gallon pail, making it a cost-effective solution for any number of food and beverage applications
